## ST IGNATIUS RIVERVIEW

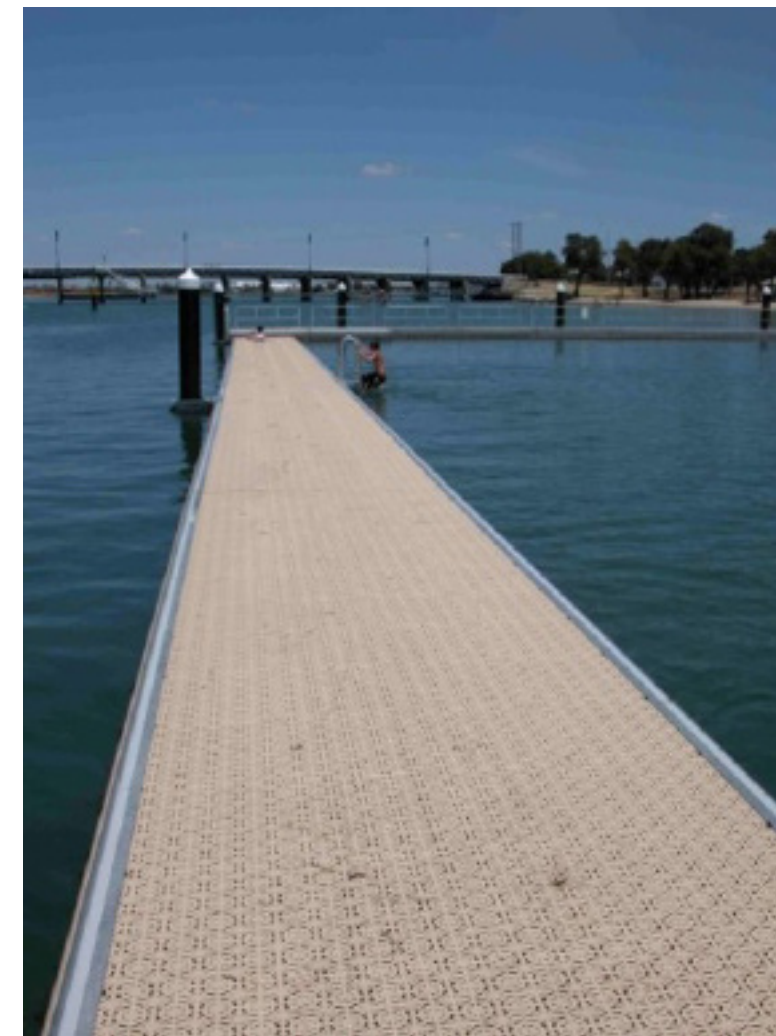

NSW - 2011

2 pontoons (30m and 20m x 3.2m) and 2 gangways (9m x 9m) - Gangways articulated on quay and rolling on pontoons secured by piles.

## MANDURAH SWIMMING JETTY

WA - 2003

A low freeboard (rowing pontoon) to improve amenity of existing enclosed swimming area.

"The pontoon has been excellent and we have received only positive comments about its use. I have also used the Poralu Pontoon on a number of occasions around the world, as I have been coaching the Vietnam Rowing Team for the past 4 years and I coached the team at the London Olympics and the World Championships in Korea in 2013."

*Donnelly*

## KINROOS WOLLAROI HIGH SCHOOL - ORANGE

NSW - 2005

A relocatable "T" launch pontoon installation consisting of a 12m x 2.5m pontoon and 6m x 2m floating access way.

## FOOTSCRAY BOAT CLUB - MELBOURNE

VIC - 2006

36m x 2.5m pontoon with two 6m x 6m articulated gangways.

## SOMERSET SCHOOL

QLD - 2007

12m x 2.5m pontoon with articulated gangway and mooring bracket.

The Venues West Champion Lakes Regatta Centre has benefited from installed Poralu launch and starting pontoons for more than five years now and the frames have shown no signs of deterioration in the salt water environment of the lake." Jamie MacKenzie -Venue Operations Coordinator - Champion Lakes Regatta Facility

## ARMADALE REDEVELOPMENT AUTHORITY

WA - 2008

8 lanes start pontoon facility with sliding fingers. Relocatable to multiply start positions with Rope and Winch Anchorage.

"The Tamar rowing Club has been delighted with our Poralu pontoon. The design specification of handling a high tidal variation and being able to swing the outer section out of the way in about 30 mins of notification of a major flood event has proven to be excellent. Jim Guy- Tamar Rowing Club

## TAMAR ROWING CLUB - LAUNCESTON

TAS - 2009

40m x 3.2m floating access way and 12m x 2.5m launching pontoon.

System designed to articulate for large tidal (3m) range and enable quick dismantling of outer section during flood event.

" The Poralu pontoon installed at Powerhouse Rowing Club is a vast improvement on the previous fixed timber staging.

The club couldn't be happier with their choice of a well proven pontoon system which has a deck that is gentle on boats and oars. The pontoon now provides a safe and practical launching facility for rowers of all ages and abilities" Angelo Rizzardì, Club Treasurer

## POWERHOUSE ROWING CLUB - MELBOURNE

VIC - 2009

36m x 2.5m pontoon with two 6m x 6m gangways articulated on pontoon and rolling on quay.

Pontoon installed on piles and gangways fitted with floatation to accommodate possible flood events - Pontoon incorporating debris deflector.

## SALE ROWING CLUB

VIC - 2010

336m x 2.5m pontoon with two 6m x 6m gangways articulated on quay.

## ARMADALE REDEVELOPMENT AUTHORITY

WA - 2010

8 lanes start pontoon facility with sliding fingers.

“The ability to easily and quickly move the starting pontoon to different starting locations on the lake during regattas provides benefits to event organizers and peace of mind to venue staff.” Jamie MacKenzie -Venue Operations Coordinator - Champion Lakes Regatta Facility

"We looked at many local and interstate Australian manufactured systems as a preference, but nothing came even close to the PORALU manufactured design, its the Rolls Royce product, satisfied all our criteria(...) We have continually recommended the product to other Canoe Clubs and Rowing clubs as we have enquiries from them at regatta's and events when our pontoon ramp is used."  
David Slater - Buildings & Works committee - Essendon Canoe Club

## ESSENDON CANOE CLUB - MELBOURNE

VIC - 2010

15m x 2.5m pontoon with 6m x 6m articulated gangway. Pontoon includes a debris deflector and dinghy launch rollers.

## INNISFAIL ROWING CLUB

QLD - 2011

12m x 2.5m pontoon and 12m x 3m articulated gangway and mooring bracket.

## TOWNSVILLE

QLD - 2012

36m x 2.5m launch pontoon with articulated rowing gangway (3m wide) and articulated public access gangway (1.2m wide) - Installation designed for 3m/sec flood velocity.

## ST PATRICK'S COLLEGE - BALLARAT

VIC - 2013

17m x 6m pontoon platform and 4m x 3m articulated gangway.

"Thanks to Kevin and the team for all their assistance in this project and their patience in dealing with the demolition and the variety of weather provided by Ballarat. The pontoon has had plaudits from all sections of the school and is a huge improvement to the function of the boatshed".

## NEWINGTON COLLEGE - SYDNEY

NSW - 2013

24m x 3.2m pontoon and 17m x 8m gangway - Piled installation.

## LAKE GINNINDERRA

NSW - 2016

10m x 4m Pontoon with 6m x 2.25m Gangway (Double Articulation) and chain/block anchor system.

## CAPITAL LAKES ROWING

NSW - 2017

20m x 4m Pontoon with 6m x 2.25m Gangway (Double articulation) and chain/block anchor system.

## CANBERRA GRAMMAR SCHOOL

NSW - 2017

12m x 5m Pontoon with 6m x 2.25m Gangway (Double Articulation) and chain/block anchor system.

KAWANA - SUNSHINE COAST COUNCIL

QSL - 2020

108m x 2,5 m start line and chain/block anchor system. Can be assembled as a ceremony platform.
